Education

Bachelor of Technology in Computer Science

Chandigarh University Mohali, Punjab

Expected Graduation: July 2027

Relevant Coursework: Data Structures, Algorithms, Databases.

Technical Skills

Programming Languages: C , C++ , Python

Web Technologies: HTML , CSS , TAILWIND CSS , JAVASCRIPT , REACT ,EXPRESS JS ,NODE JS

Tools & Platforms: Git

Other Skills: Problem Solving, Collaborative Working

Projects

1.Razorpay-clone— HTML , CSS , Tailwind CSS , javascript , react (Ongoing)

Project Overview: Implemented secure payment processing functionality using React and JavaScript.

- Demonstrated proficiency in front-end web development through the use of modern technologies such as React.

2.Weather monitoring system—HTML , CSS , Tailwind css ,JAVASCRIPT

- **Project Overview:** Designed and developed a responsive, real-time **Weather Monitoring System** using **HTML**, **Tailwind CSS**, and **JavaScript**. The system provides live weather updates, such as temperature, humidity, and wind speed, by fetching data from an external weather API.

3. Parallax website— HTML , CSS

- **Project Overview:** Designed and developed a visually engaging website utilizing the parallax scrolling effect. The site features multiple layers that move at different speeds as the user scrolls, creating an immersive depth and dynamic browsing experience.
